

How much does the mail order house pay toward supporting your schools and churches?

If you buy a ton of steel rails in England, you have the rails and England has the money. If you buy a ton of steel rails in America, America has the rails and the money too.--Abraham Lincoln.

PATRONIZE HOME INDUSTRY!

Home Industry means Home Prosperity.

Keep your money in circulation at home, don't send it away to enrich strangers.

The prosperity of our country has been built on the platform, "Patronize Home Industry."

Help build up this vicinity; never mind the rest of the country. It is old enough to take care of itself.

A prosperous town means contented people.

If you would let your home merchant have a chance to figure on your goods, the catalogue house would not have a look in.

When you want credit you do not ask the catalogue house to carry you.

Think of these things, neighbor, when looking over your catalogue.

YOUR NEXT ORDER

In whatever line should be given to your home merchant.

Tell him what quality and what quantity you want and let him show you how easily he can scoop the city chap of high rents, high salaries and high living.

Give him the benefit of your cash purchases and he can afford to trust you when you are short—and he will trust you. Stick to the bridge that carries you safe over.

Patronize home industry.

Large American institutions owe their magnificent prosperity to the pride which the American has in his home country. The same sentiment should prevail toward the town in which you live. You can easily beggar your home merchant by giving him your credit business and sending all your cash trade away. Give your home merchant a chance and he can undersell the catalogue house on goods of equal quality.

Respectfully dedicated to mail order house patrons in interest of News and Citizen advertisers.

ANNOUNCEMENT.

This advertisement is in the interest of the business men of Morrisville and its purpose is to impress the public with the duty it owes to the home business men and to the home town in general.

Your Home Merchant does not build ten-story stone buildings on the profits he makes.

Your Home Merchant keeps up your home town and the home town makes your home more valuable.

A Unique Tombstone

A stone carving of a grizzly bear in the attitude of defending her cubs has been carved by Andrew Chester Thompson of Seattle, and will be immediately shipped to Alaska to be placed over the grave of R. Shadesty, one of the most prominent Indians in the north when alive. He died Dec. 17, 1903, leaving \$600 to defray the cost of the monument.

The big piece of stone carving, weighing 3,000 pounds, will be shipped from Seattle to Wrangell and from that point will be carried about 150 miles overland to the home of Bear family of Indians. The Indians themselves will transport the grizzly on its overland journey according to their own primitive methods of transportation.

Mr. Thompson has been carving images for Alaska Indians for the past twenty-five years, but this is the largest monument he has shipped to Alaska carved from a single piece of marble.

The stone carving provided for Shadesty is the first to be ordered in a defensive attitude. For the Black Bear tribe Mr. Thompson has carved several statues of bears, but they have all been on all fours. The Wolf tribe and others taking their names from wild animals have ordered carvings, but the work done for Shadesty is novel in its conception.

It is customary among the Alaska Indians to leave money to pay for their own tombstones and Shadesty saved for a lifetime to give himself a suitable piece for his grave. He was wealthy enough, though, to leave his kinsmen considerable money.—Seattle Times

Working Overtime

"A good advertisement may be long to the union and yet work Sunday and overtime," observes White's Sayings.

It is like a stone thrown into a mill pond. The commotion it causes does not end with the initial splash—it sends forth a ripple in ever-widening circles that sometimes extend to the farthest shores.

Not long ago the Philadelphia Record told of an "ad" that made a sale eight years after it was published.

Advertising is about the only servant that will cheerfully continue to work for you after the final pay day.

IN HUB MARKETS

Boston, Sept. 18.—Butter is easier, and trade is light, as buyers are not willing to pay the prices demanded by receivers. About 25c is the top for choice northern creamery, though some are asking more. Northern creamery, 22c@23c; western, 22c@23c; dairy, 20c@21c.

Choice nearby eggs are in light supply and are quoted very firm, but low grades are in full supply and the market is easy. Choice nearby, 28c@30c; eastern, 25c@26c; western, 24c@25c.

Cheese is easier in New York and outside markets, but this market has not yet responded, though the feeling is easier, and buyers are holding off. York state, 12c@12c; Vermont twins, 11c@12c.

The demand for fruits and vegetables has come chiefly from local sources and though it lacks the snap which dealers like to see, things have cleaned up better, and there is less complaint of an oversupply. As a matter of fact, though the market is well stocked with most products, peaches seem to be the only offering of which there is more than can be handled. The tone of the market generally is steady; changes in prices are as a rule unimportant.

There has been a very fair movement of apples and rather light receipts were cleaned up in good shape at satisfactory prices. Fancy cooking stock has been in especially good request.

STATE NEWS.

It has been decided to hold the next annual meeting of the Vermont State Grange in Montpelier Dec. 12, 13 and 14, next.

Miss Frederica Webb's marriage to Ralph Pulitzer, of New York, will take place Saturday, October 14, at Shelburne Farms, the Vermont place of her parents, Dr. and Mrs. W. W. Seward Webb.

State Auditor Horace F. Graham of Craftsbury, who has just completed the work of auditing the accounts of Montpelier city court for June, July and August, found that during that time 108 cases had been before the court, and the total expense was \$1,435.10.

From West Addison comes the report that many of the farmers are threshing oats in the field, being unable to draw them to the barn, the ground being too wet. The rains have occasioned many hundreds of dollars loss to farmers in the grain crops. Pears and plums are plentiful in that vicinity.

Mrs. Groll of Guilford had an adventure with a big buck deer on Sunday last week, which might have been serious. She went to the garden to gather vegetables for dinner when the deer, which was there for a like purpose, approached her in a very threatening manner. When so close that only a bean pole separated them, the family dog came to the rescue and chased the deer back to the woods.

The deer are doing much damage to farm crops on the hills of Chester. Two acres of bush beans owned by one farmer were all eaten in less than three days. The lot was near the edge of the woods where a large herd of deer was occasionally seen.

Burglars broke into the postoffice at Barton landing Wednesday, wrecking the safe with a charge of dynamite, and carried away a small sum of money and some stamps. The door of the safe was blown through the side of the building. No trace of the burglars has been found yet.

An exchange says: "The meanest man in the world lives in New Jersey. In helping him out of the river a man tore the collar of the drowning man's coat and the next day the rescued man named him for tearing his coat." This may describe a mean man in New Jersey all right, but such a one does not begin to compare in meanness to the Missouri man who refused to insure his life because, he said, if he left his wife some money some other man might marry her.
